# Live Learning Webinars

## Medication without Harm

### Nursing and Midwifery Global Community of Practice

This year the theme for World Patient Safety Day is **Medication Safety**. To support this important agenda, the WHO Nursing and Midwifery Global Community of Practice is hosting a webinar to discuss **Medication without Harm**. Speakers will identify safeguards that organizations can put in place to protect its patients from harm and different sessions will focus on the issues of accountability, responsibility and blame.

We will hear about solutions to minimise medication errors and explore ways to create a safety culture that supports learning and quality improvement.

#### Elizabeth Iro

Chief Nursing Officer  
World Health Organization
